

Elevator Pitch - Manuel des lignes directrices internationales sur la planification urbaine et territoriale

13 octobre

De 11.00 hasta 12.30

The International Guidelines on Urban and Territorial Planning serve both as a source of inspiration and a compass for decision makers and urban professionals when reviewing urban and territorial planning systems. The Guidelines provide national governments, local authorities, civil society organizations and planning professionals with a global reference framework that promotes more compact, socially inclusive, better integrated and connected cities and territories that foster sustainable urban development and are resilient to climate change.
