

Presentations Corner - Building capacity of women waste pickers

13 octubre

De 10.00 hasta 10.30

The presentation will highlight women waste pickers' perceptions on gender inequalities in their lives and to explore how the process towards empowerment begins on a personal level, yet must be tied to their collective action, and how this might foster democratic changes within waste picker and other social and labour movements. It will also explore a pilot experience of building women's capacity for communication through coaching of cooperatives.
