2016: TOUCHDOWN FOR THE GLOBAL AGENDAS IN CITIES AND REGIONS

“For cities, regions and local governments around the world, 2016 guarantees to be a particularly intensive year. The global agendas are touching down in cities and regions. From this year onwards, we will test **the capacity of partnerships between governments and civil society to ensure that global and national agendas become useful tools to solve the everyday problems of citizens and territories.** And 2016 will also be the year of our local and regional government agendas.

2016 will also be an intensive year for UCLG: In October we will celebrate the Congress and World Summit of Local and Regional Leaders in Bogotá and the World Assembly in Quito.”
