

Call for Speakers for the Presentations Corner

Enviado por admin el Mar, 19/07/2016 - 13:21

CALL FOR SPEAKERS PRESENTATIONS CORNER

Will you be attending the World Summit of Local and Regional Leaders? Do you have an experience or a proposal that you think could be interesting for local government representatives and practitioners from around the globe?

If you answered yes to both questions, you might be interested in delivering a 15-minute presentation at the Summit's Presentations Corner.

Be part of the sharing of visions and solutions towards more livable and sustainable cities by responding to the Call for Speakers.

Take advantage of the opportunity to present your case study on urban innovation in the Network Hub. Situated in the heart of the Congress venue, this strategic location is a hotspot for attracting key visitors and delegates.

Increase visibility and recognition for your local government or institution among local government representatives and practitioners from around the globe. It's your chance to share your visions of the future!

UCLG will consider all proposals and choose those that are best aligned with the tracks covered at the Summit. Should you be among the selected speakers, you will receive further information, including the date and time of your presentation.

UCLG is not able to cover the cost of your trip or the registration fee for those speakers who are selected. This is an opportunity for those delegates already attending to present their ideas to the UCLG family.

Proposals and presentations must be in English, French or Spanish. Please bear in mind that interpretation will not be available in the Presentations Corner.

Please fill out the [form](#) and send it back at Bogota2016@uclg.org before 12 September 2016.
